My wife and I are eight months pregnant now and doctors keep telling us that our baby won't be born because of many difficulties. The baby seems to have enlarged kidneys with cysts and very little fluid for our baby to survive. They are also indicating the baby's lungs won't function due to the lack of fluid. ..The only option they offer us is to give up on it and shut down its life. We don't want to! There is no result without God's result and we believe He has not given it to us yet. ...In our faith and knowledge in God, we have tried to follow his teachings as much as we can and apply them to this very hard experience we are having...We have been blessed by having received so many beautiful replies in prayers from the kindest and most loving churches and convents in Countries around the world. We are extremely grateful for all their prayers, beautiful words and support, we feel so blessed. A lot of the replies are so inspiring that I feel is God talking to us through them, which I'm sure it's the case. In conclusion, our unborn beautiful baby and us are still in need of as many prayers as possible and would like to invite you to please join us in prayers for the life of our beautiful little baby. We really need our Lord to give us this miracle and heal our baby's kidneys so that we can enjoy him/her and love our baby even more and teach it to love God and Jesus Christ more than anyone or anything else. We are pretty heart broken but our faith keeps us going. We are really hoping for good news here soon so we can have some relief. We just had an ultrasound Jan 9 and no good news. Our baby is still in danger according to the doctors. It really destroys us everytime we see them and they give us the "we told you so" look. We don't even wish to keep following up with them for we see no point. We keep asking for the baby's gender but for various reasons they say they can't see. We wish we knew so we can pray for the baby by name. We do have names picked out but for now we will just call the baby our beautiful angel. God bless you and hear your prayers. With unity, love and faith all is possible.

Please pray for a friend of mine, Samuel. After going through chemotherapy for a year, he has been cancer free for 4 months. His last scan revealed that the cancer is back and is told that chemo wouldn't work; his only option is surgery with terrible odds. He's been given 8 months to live. Please pray for his healing, and please pray that he and his family/friends can have the strength for the journey they are about to begin.
